Back(pack) to the
Future: The
Renaissance of
ePortfolios

Contributed by Julian Prior, Educational Technology Advisor at Langara College ePortfolios are one of those technologies whose popularity in post-secondary education seems to come in waves, much like the interest in virtual worlds or classroom response systems ('clickers'). Fifteen years ago when I was a Sociology lecturer at a further education college in the UK my

colleagues were constantly clamouring ...

[T.e.I.I. Session Topics] Crowdsourcing Call for Ideas

Contributed by Grant Gregson and Leva Lee The Educational Technology Users Group (ETUG) is looking for ideas from B.C.'s educational community on what educators want to learn in 2017. Your ideas will be collected and facilitators contacted for leading a 30-60 minute online session/workshop for our Tuesdays with ETUG Lunch & Learn (TELL). Held on the last Tuesday of the ...

Connected Learning Hackathon

Organized by UBC's Faculty of Education, the HR MacMillan Space Centre, and the Vancouver Aquarium

Come to the hackathon to collectively build informal learning activities that are competency based and help students build a personal learning network. We will create activities that are focused on preparing students for a career in the sciences. Some activities may turn out to directly address the curricular competencies outlined in the new BC curriculum. The activities created at the hackathon will be licensed under creative commons so educators could incorporate the activities in their classrooms. [Here are all the details.](#)
